Spring Hill, TN 37174

815-557-4513 | sulehijhaveri@gmail.com

EDUCATION

Tennessee Technological University - Cookeville TN | Bachelor of Science

- Graduation: May 2028

PROFESSIONAL SUMMARY

I am a freshman electrical engineering student at Tennessee Technological University. I have limited experience in circuit analysis and have worked with LTSpice. I am proficient in AutoCAD, with 2+ years of experience. At Thompson Station Church, I honed my leadership and organizational skills, leading worship services and coordinating teams with a positive attitude. My role demanded adaptability, effective time management, and a collaborative spirit. I plan to combine these skills and experiences in an electrical engineering internship.

SKILLS

- LTSpice
- Circuit analysis
- AutoCAD
- Teamwork and collaboration
- Organized and efficient
- Leadership qualities
- Time management
- Adaptability and dependability
- Self motivation
- Spanish speaking at a advanced level

WORK/ VOLUNTEER EXPERIENCE

Church Volunteer | Thompson Station Church

Thompson's Station, TN - September 2021 - July 2024- Led worship service for the middle and high school students each week. Engaged in song selection, service flow coordination, and played the guitar and sang in the band. This position required weekly time set aside to plan and practice. Here I learned to work well with others and collaborate for a common goal. Time management skills were crucial for completing the task.

PROJECTS

Robotic Arm: Collaborated with a classmate to build a functional robotic arm using servo motors and a raspberry pi microcontroller.
